1. Executive Summary

AUTISTIK is a community-driven meme token on the BNB Smart Chain built for inclusivity. With a fixed supply of 100,000,000 AUTISTIK tokens, the project supports people living with autism through meme culture while funding real-world impact via Autistik Grants — transparent grants for organizations and individuals creating measurable positive change.

Beyond the token, the team is building an AI-powered meme creation chatbot that generates positive, authentic autistic-themed memes. AUTISTIK proves meme culture can be both fun and meaningful.

2. Vision & Mission

Vision: A digital culture where autistic voices are supported, memes build understanding, and blockchain amplifies real-world solidarity.

Mission: Create an inclusive meme token centered on people living with autism. Build tools (including an AI meme chatbot) that empower authentic representation. Foster a welcoming community that models the inclusivity it advocates. Autistik Grants supports real-world community projects by providing small, transparent grants to organizations and individuals creating measurable positive impact.

"We don't just want a seat at the table. We want to redesign the table so everyone can thrive."

3. The Challenge

People living with autism face social stigma, institutional barriers in healthcare and education, and underrepresentation in culture. Meme culture can amplify ableist humor instead of dismantling it. AUTISTIK contributes by shifting narratives, building community, and directing funds toward advocacy and support through transparent grants.

4. The AUTISTIK Solution

Inclusive Meme Culture — Supporting autistic humor, special interests, and neurodivergent perspectives without stereotypes. The community creates affirming memes that uplift rather than mock.

Autistik Grants — A core commitment. Transparent, small grants fund real-world projects with measurable impact across multiple categories (detailed in Section 6).

AI Meme Chatbot — An AI tool fine-tuned for positive, authentic autistic-themed memes that anyone can share.

5. Tokenomics

AUTISTIK launches on BNB Smart Chain (BEP-20) with a fixed, non-inflationary supply of 100,000,000 tokens. Transaction tax is set at 3% buy / 4% sell.

Parameter	Details
Token Name	Autism Spectrum Disorder (ASD)
Ticker	AUTISTIK
Blockchain	BNB Smart Chain (BEP-20)
Total Supply	100,000,000 AUTISTIK
Buy / Sell Tax	3% / 4%
Minting	Fixed supply — no additional minting

Proposed Allocation

Allocation	%	Tokens	Purpose
Liquidity Pool	40%	40,000,000	DEX liquidity
Burn	30%	30,000,000	Immediate supply reduction
Development	20%	20,000,000	Chatbot, tools, audits & grants
Strategic Burning	10%	10,000,000	Reserved for strategic burns

6. Autistik Grants

Autistik Grants supports real-world community projects by providing small, transparent grants to organizations and individuals creating measurable positive impact. The Development allocation and community contributions help fund this program. All major disbursements are publicly documented.

Grant Categories

Category	Focus
Autism & Neurodiversity	Support programs, resources, education and inclusion
Schools & Education	Supplies, technology, learning programs and accessibility
Therapy & Accessibility	Equipment, accessibility improvements and support services
Food Security	Food banks, community kitchens and emergency food programs
Animal Welfare	Shelters, rescue programs and veterinary support initiatives
Disaster Relief	Emergency supplies and community recovery
Local Community	Projects that directly improve neighborhoods and communities
Other Impact Projects	Proposals that demonstrate clear community benefit

7. Utility — AI Meme Creation Chatbot

An AI-powered chatbot specialized in generating high-quality, positive autistic-themed memes. Designed to be supportive, authentic, shareable, and inclusive — usable by autistic creators and allies. Future versions may include community templates and token-gated features.

8. Roadmap

Phase	Focus	Key Milestones
Phase 1 Launch	Foundation	• Token deployment on BNB Smart Chain • Liquidity provision (40%) & fair launch • Official website, socials & community • Autistik Grants wallet configuration
Phase 2 Growth	Visibility & Trust	• Marketing campaigns & partnerships • First Autistik Grants disbursements • Community meme contests • Independent smart contract audit
Phase 3 Utility	AI Chatbot	• Alpha release of AI meme chatbot • Community feedback & improvements • Integration of AUTISTIK token utility • Expanded grant partnerships
Phase 4 Expansion	Ecosystem & Impact	• Full public launch of the meme chatbot • Governance / community voting tools • Larger-scale Autistik Grants initiatives • Cross-chain exploration (if supported)

9. Conclusion

AUTISTIK is more than a meme coin. It is an invitation to laugh, belong, build, and give back. Through inclusive meme culture and Autistik Grants, we channel community energy into measurable support for autistic people, disability communities, and real-world impact projects worldwide.

Autistik Grants supports real-world community projects by providing small, transparent grants to organizations and individuals creating measurable positive impact — across autism & neurodiversity, schools & education, therapy & accessibility, food security, animal welfare, disaster relief, local community projects, and other initiatives that demonstrate clear benefit.

The 100,000,000 AUTISTIK token supply is finite. The potential of a community that chooses empathy, creativity, and action is not.

**Together, we support neurodiversity.
Together, we build something that matters.**

— The AUTISTIK Team
